

EZ-SWAP

REMOVABLE HARD DRIVE RACK

PRODUCT DESCRIPTION

Unlike standard IDE hard drives, Serial ATA (SATA) hard drives feature faster speeds, easier configuration, and the ability to change hard drives without having to turn your system off first. Thus, Vantec introduces the Serial ATA EZ-Swap Mobile Rack. The SATA EZ-Swap Mobile Rack combines the features of our IDE EZ-Swap with the convenience of SATA. The SATA EZ-Swap is hot swappable, features a keyed lock for security, a built-in fan for cooling, and a built-in LCD that display hard drive up-time, temperature, and fan status.

FEATURES

- Compatible With 3.5" SATA Hard Drives (HDD)
- Swap HDDs w/o Turning Off Or Opening Your PC
- Aluminum Case w/ Additional Cooling
- Temperature Display w/ Alarm
